

COVID-19 TRAVEL GUIDE 2021/2022 (Version 22.03.2022)

Please review all the information below in advance of your trip as there are important steps that need to be completed before you travel.

ARRIVING INTO CANADA**Overview**

You will need the following before entering **Canada**:-

1. Double vaccination with the latest dose administered at least 14-days before departure
2. You will no longer be required to take a pre-departure test to enter Canada.
3. Completed ArriveCAN form within 72hrs of your departure
4. Canada arrival PCR test (this is organised and provided for by the Canadian government) – which (from the 28th February) will be on a random basis, rather than for all travellers.

(1) Double Vaccinated

Canada is only allowing entry to international travellers who have been double vaccinated at least 14 whole days before you travel. Proof will be required at the border. Check which vaccines are accepted here:

<https://travel.gc.ca/travel-covid/travel-restrictions/covid-vaccinated-travellers-entering-canada#determine-fully>. For UK guests, the [NHS COVID Pass](#) can be used as proof of vaccine.

(2) Test to Travel

From Friday 1st April 2022, there is no requirement for a pre-departure test to enter Canada.

(3) ArriveCAN

Before you depart to Canada you must fill out the ArriveCAN form **within 72hrs before arrival** in Canada. On this form, you will need to submit proof of double vaccination and a quarantine plan*. You can access ArriveCAN via the web or via an Apple or Android app <https://www.canada.ca/en/public-health/services/diseases/coronavirus-disease-covid-19/arrivecan.html>

*Our detailed guide to completing the ArriveCAN app is here: <https://www.purepowder.com/arrivecan>

(4) Canada Arrival PCR Test

Passengers will be **randomly** selected to take a PCR test on arrival into Canada (except those who can provide proof of a positive COVID infection between 11 and 180 days ago). These tests do not need to be pre-booked as the test is organised by the Canadian Government and performed in the airport at your first entry point into Canada. Passengers are not required to quarantine whilst waiting for test results and will be able to continue to their destination (via air or road). To speed up the testing process you can register with the relevant ENTRY POINT testing provider here:

<https://travel.gc.ca/travel-covid/travel-restrictions/arrival-testing-providers>

RETURNING TO THE UK

From 04.00 on Friday 18th March, there will be no COVID travel requirements when entering the UK.

If you are not travelling back to the UK, please check the entry requirements of the country you are returning to or contact us for guidance.

Please note that this guide has been compiled with the latest available information at the time of publication and guidance can change at any time. Before you travel, please double-check the current guidance and how this relates to your own personal circumstances as we cannot be held responsible for any issues.
